Programme/Project #375

Title
Enter the Programme/Project title, and sub-title if applicable
Innovations for sustainable agriculture

Organisation(s)
Enter the full name and acronym of the reporting organisation
No answer provided

Other
• Federal Ministry for Economic Cooperation and Development (BMZ)

Role of the Organisation(s) in the Programme/Project
Indicate the role of the reporting organisation in the Programme /Project (e.g. funding agency, implementing agency, etc.)
Donor (ODA)

Civil Society Organisations (CSOs) and Science & Technology Institutions (STIs)
Enter the name(s) of Civil Society Organisations (CSOs), including Non-Governmental Organisations, research institutions and-or Science & Technology Institutions (STIs) involved in the Programme/Project. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-3.
No answer provided

Beneficiary Country(ies) or Sub Region(s)
Enter the name of the Country(ies), Subregion(s) and/or Region(s) benefiting from the Programme/Project. Indicate “Global” in the absence of a specific geographical focus
• Nicaragua

Target Area size/administrative unit
Indicate the total area expressed in number of hectares (numeric field. Do not use abbreviations, symbols or decimals). Also indicate the administrative unit targeted in the (Programme/Project area, if known.
Area Size
No answer provided
Administrative Unit
No answer provided

Target Group
Enter the different stakeholders, such as individuals, groups, or organisations, positively affected through their involvement in the implementation of the Project/Programme
No answer provided

Beneficiaries
Enter the total number of people benefitting from the Programme/Project, if known (numeric field. Do not use abbreviations, symbols or decimals)
No answer provided

Identification code
Enter the Programme/Project identification code (ID) or number, given by the relevant extending agency (if applicable)
200975847
Status
Indicate the status of the Programme/Project at the time of completing this form.

Completed

Start date (dd/mm/yyyy)
Indicate the date at which the Programme/Project started or is due to start, if known (e.g. 15/01/2011)

No answer provided

Completion date (dd/mm/yyyy)
Indicate the date at which the Programme/Project was completed or is due to be completed, if known (e.g. 15/01/2011)

No answer provided

Programme/Project co-financing
No answer provided

UN Conventions' Rio Markers

Programme/Project #433

Title
Enter the Programme/Project title, and sub-title if applicable

Support of decentralisation processes and local governance in South Africa, Lesotho and United Republic of Tanzania

Organisation(s)
Enter the full name and acronym of the reporting organisation

No answer provided

Other

- Federal Ministry for Economic Cooperation and Development (BMZ)

Role of the Organisation(s) in the Programme/Project
Indicate the role of the reporting organisation in the Programme /Project (e.g. funding agency, implementing agency, etc.)

Donor (ODA)

Civil Society Organisations (CSOs) and Science & Technology Institutions (STIs)
Enter the name(s) of Civil Society Organisations (CSOs), including Non-Governmental Organisations, research institutions and-or Science & Technology Institutions (STIs) involved in the Programme/Project. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-3.

No answer provided

Beneficiary Country(ies) or Sub Region(s)
Enter the name of the Country(ies), Subregion(s) and/or Region(s) benefiting from the Programme/Project. Indicate "Global" in the absence of a specific geographical focus

- Africa

Target Area size/administrative unit
Indicate the total area expressed in number of hectares (numeric field. Do not use abbreviations, symbols or decimals). Also indicate the administrative unit targeted in the (Programme/Project area, if known.

Area Size

No answer provided

Administrative Unit

No answer provided

Target Group
Enter the different stakeholders, such as individuals, groups, or organisations, positively affected through their involvement in the implementation of the Project/Programme

No answer provided

Beneficiaries
Enter the total number of people benefitting from the Programme/Project, if known (numeric field. Do not use abbreviations, symbols or decimals)

No answer provided

Identification code
Enter the Programme/Project identification code (ID) or number, given by the relevant extending agency (if applicable)

9802300000
**Status**
Indicate the status of the Programme/Project at the time of completing this form.

- Completed

**Start date (dd/mm/yyyy)**
Indicate the date at which the Programme/Project started or is due to start, if known (e.g. 15/01/2011)

- No answer provided

**Completion date (dd/mm/yyyy)**
Indicate the date at which the Programme/Project was completed or is due to be completed, if known (e.g. 15/01/2011)

Programme/Project #474

Title
Enter the Programme/Project title, and sub-title if applicable

Introduction and application of GIS within Land Use Planning & Allocation Division to collect and transform geographic data of farm land

Organisation(s)
Enter the full name and acronym of the reporting organisation

No answer provided

Other
- Federal Ministry for Economic Cooperation and Development (BMZ)

Role of the Organisation(s) in the Programme/Project
Indicate the role of the reporting organisation in the Programme /Project (e.g. funding agency, implementing agency, etc.)

Donor (ODA)

Civil Society Organisations (CSOs) and Science & Technology Institutions (STIs)
Enter the name(s) of Civil Society Organisations (CSOs), including Non-Governmental Organisations, research institutions and-or Science & Technology Institutions (STIs) involved in the Programme/Project. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-3.

No answer provided

Beneficiary Country(ies) or Sub Region(s)
Enter the name of the Country(ies), Subregion(s) and/or Region(s) benefiting from the Programme/Project. Indicate “Global” in the absence of a specific geographical focus

- Namibia

Target Area size/administrative unit
Indicate the total area expressed in number of hectares (numeric field. Do not use abbreviations, symbols or decimals). Also indicate the administrative unit targeted in the (Programme/Project area, if known.

Area Size
No answer provided

Administrative Unit
No answer provided

Target Group
Enter the different stakeholders, such as individuals, groups, or organisations, positively affected through their involvement in the implementation of the Project/Programme

No answer provided

Beneficiaries
Enter the total number of people benefitting from the Programme/Project, if known (numeric field. Do not use abbreviations, symbols or decimals)

No answer provided

Identification code
Enter the Programme/Project identification code (ID) or number, given by the relevant extending agency (if applicable)
ST0806075
Status
Indicate the status of the Programme/Project at the time of completing this form.
Completed

Start date (dd/mm/yyyy)
Indicate the date at which the Programme/Project started or is due to start, if known (e.g. 15/01/2011)
No answer provided

Completion date (dd/mm/yyyy)
Indicate the date at which the Programme/Project was completed or is due to be completed, if known (e.g. 15/01/2011)
No answer provided

Programme/Project co-financing
No answer provided

UN Conventions' Rio Markers
Assign the appropriate Rio Marker to the Programme/Project (refer to the Rio Markers guidance note for more information, examples and instructions)

Target Area size/administrative unit
Indicate the total area expressed in number of hectares (numeric field. Do not use abbreviations, symbols or decimals). Also indicate the administrative unit targeted in the Programme/Project area, if known.

Area Size
No answer provided

Administrative Unit
No answer provided

Target Group
Enter the different stakeholders, such as individuals, groups, or organisations, positively affected through their involvement in the implementation of the Project/Programme

No answer provided

Beneficiaries
Enter the total number of people benefitting from the Programme/Project, if known (numeric field. Do not use abbreviations, symbols or decimals)

No answer provided

Identification code
Enter the Programme/Project identification code (ID) or number, given by the relevant extending agency (if applicable)

ST0802355
**Status**
Indicate the status of the Programme/Project at the time of completing this form.

Completed

**Start date (dd/mm/yyyy)**
Indicate the date at which the Programme/Project started or is due to start, if known (e.g. 15/01/2011)

No answer provided

**Completion date (dd/mm/yyyy)**
Indicate the date at which the Programme/Project was completed or is due to be completed, if known (e.g. 15/01/2011)

No answer provided

**Programme/Project co-financing**
No answer provided

**UN Conventions' Rio Markers**
Assign the appropriate Rio Marker to the Programme/Project (refer to the Rio Markers guidance note for more information, examples and instructions)

Enter the name(s) of Civil Society Organisations (CSOs), including Non-Governmental Organisations, research institutions and-or Science & Technology Institutions (STIs) involved in the Programme/Project. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-3.

No answer provided

Beneficiary Country(ies) or Sub Region(s)
Enter the name of the Country(ies), Subregion(s) and/or Region(s) benefiting from the Programme/Project. Indicate “Global” in the absence of a specific geographical focus

- Mexico

Target Area size/administrative unit
Indicate the total area expressed in number of hectares (numeric field. Do not use abbreviations, symbols or decimals). Also indicate the administrative unit targeted in the (Programme/Project area, if known.

Area Size
No answer provided

Administrative Unit
No answer provided

Target Group
Enter the different stakeholders, such as individuals, groups, or organisations, positively affected through their involvement in the implementation of the Project/Programme

No answer provided

Beneficiaries
Enter the total number of people benefitting from the Programme/Project, if known (numeric field. Do not use abbreviations, symbols or decimals)

No answer provided

Identification code
Enter the Programme/Project identification code (ID) or number, given by the relevant extending agency (if applicable)

ST0805770
**Status**
Indicate the status of the Programme/Project at the time of completing this form.

*Completed*

**Start date (dd/mm/yyyy)**
Indicate the date at which the Programme/Project started or is due to start, if known (e.g. 15/01/2011)

*No answer provided*

**Completion date (dd/mm/yyyy)**
Indicate the date at which the Programme/Project was completed or is due to be completed, if known (e.g. 15/01/2011)

*No answer provided*

**Programme/Project co-financing**

*No answer provided*

**UN Conventions' Rio Markers**
Assign the appropriate Rio Marker to the Programme/Project (refer to the Rio Markers guidance note for more information, examples and instructions)

Programme/Project #632

Title
Enter the Programme/Project title, and sub-title if applicable

Decentralised rural development program Ila Mayo-Kebbi and Quaddai-Biltine

Organisation(s)
Enter the full name and acronym of the reporting organisation

No answer provided

Other

- Federal Ministry for Economic Cooperation and Development (BMZ)

Role of the Organisation(s) in the Programme/Project
Indicate the role of the reporting organisation in the Programme/Project (e.g. funding agency, implementing agency, etc.)

Donor (ODA)

Civil Society Organisations (CSOs) and Science & Technology Institutions (STIs)
Enter the name(s) of Civil Society Organisations (CSOs), including Non-Governmental Organisations, research institutions and/or Science & Technology Institutions (STIs) involved in the Programme/Project. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-3.

No answer provided

Beneficiary Country(ies) or Sub Region(s)
Enter the name of the Country(ies), Subregion(s) and/or Region(s) benefiting from the Programme/Project. Indicate “Global” in the absence of a specific geographical focus

- Chad

Target Area size/administrative unit
Indicate the total area expressed in number of hectares (numeric field. Do not use abbreviations, symbols or decimals). Also indicate the administrative unit targeted in the Programme/Project area, if known.

Area Size

No answer provided

Administrative Unit

No answer provided

Target Group
Enter the different stakeholders, such as individuals, groups, or organisations, positively affected through their involvement in the implementation of the Project/Programme

No answer provided

Beneficiaries
Enter the total number of people benefitting from the Programme/Project, if known (numeric field. Do not use abbreviations, symbols or decimals)

No answer provided

Identification code
Enter the Programme/Project identification code (ID) or number, given by the relevant extending agency (if applicable)

200466250
**Status**
Indicate the status of the Programme/Project at the time of completing this form.

*Ongoing*

---

**Start date (dd/mm/yyyy)**
Indicate the date at which the Programme/Project started or is due to start, if known (e.g. 15/01/2011)

*No answer provided*

---

**Completion date (dd/mm/yyyy)**
Indicate the date at which the Programme/Project was completed or is due to be completed, if known (e.g. 15/01/2011)

*No answer provided*

Title
Enter the Programme/Project title, and sub-title if applicable

Environmental management / indigenous people in Central America

Organisation(s)
Enter the full name and acronym of the reporting organisation

No answer provided

Other
- Federal Ministry for Economic Cooperation and Development (BMZ)

Role of the Organisation(s) in the Programme/Project
Indicate the role of the reporting organisation in the Programme/Project (e.g. funding agency, implementing agency, etc.)

Donor (ODA)

Civil Society Organisations (CSOs) and Science & Technology Institutions (STIs)
Enter the name(s) of Civil Society Organisations (CSOs), including Non-Governmental Organisations, research institutions and-or Science & Technology Institutions (STIs) involved in the Programme/Project. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-3.

No answer provided

Beneficiary Country(ies) or Sub Region(s)
Enter the name of the Country(ies), Subregion(s) and/or Region(s) benefiting from the Programme/Project. Indicate “Global” in the absence of a specific geographical focus

- South America

Target Area size/administrative unit
Indicate the total area expressed in number of hectares (numeric field. Do not use abbreviations, symbols or decimals). Also indicate the administrative unit targeted in the Programme/Project area, if known.

Area Size
No answer provided

Administrative Unit
No answer provided

Target Group
Enter the different stakeholders, such as individuals, groups, or organisations, positively affected through their involvement in the implementation of the Project/Programme

No answer provided

Beneficiaries
Enter the total number of people benefitting from the Programme/Project, if known (numeric field. Do not use abbreviations, symbols or decimals)

No answer provided

Identification code
Enter the Programme/Project identification code (ID) or number, given by the relevant extending agency (if applicable)

200970400
Status
Indicate the status of the Programme/Project at the time of completing this form.

Pipeline

Start date (dd/mm/yyyy)
Indicate the date at which the Programme/Project started or is due to start, if known (e.g. 15/01/2011)
No answer provided

Completion date (dd/mm/yyyy)
Indicate the date at which the Programme/Project was completed or is due to be completed, if known (e.g. 15/01/2011)
No answer provided

Programme/Project co-financing
No answer provided

UN Conventions' Rio Markers
Assign the appropriate Rio Marker to the Programme/Project (refer to the Rio Markers guidance note for more information, examples and instructions)

Programme/Project #781

Title
Enter the Programme/Project title, and sub-title if applicable

Integrated support for sustainable care of hydraulic structures and soil improvement

Organisation(s)
Enter the full name and acronym of the reporting organisation

No answer provided

Other

• Federal Ministry for Economic Cooperation and Development (BMZ)

Role of the Organisation(s) in the Programme/Project
Indicate the role of the reporting organisation in the Programme /Project (e.g. funding agency, implementing agency, etc.)

Donor (ODA)

Civil Society Organisations (CSOs) and Science & Technology Institutions (STIs)
Enter the name(s) of Civil Society Organisations (CSOs), including Non-Governmental Organisations, research institutions and-or Science & Technology Institutions (STIs) involved in the Programme/Project. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-3.

No answer provided

Beneficiary Country(ies) or Sub Region(s)
Enter the name of the Country(ies), Subregion(s) and/or Region(s) benefiting from the Programme/Project. Indicate “Global” in the absence of a specific geographical focus

• Burkina Faso

Target Area size/administrative unit
Indicate the total area expressed in number of hectares (numeric field. Do not use abbreviations, symbols or decimals). Also indicate the administrative unit targeted in the Programme/Project area, if known.

Area Size

No answer provided

Administrative Unit

No answer provided

Target Group
Enter the different stakeholders, such as individuals, groups, or organisations, positively affected through their involvement in the implementation of the Project/Programme

No answer provided

Beneficiaries
Enter the total number of people benefitting from the Programme/Project, if known (numeric field. Do not use abbreviations, symbols or decimals)

No answer provided

Identification code
Enter the Programme/Project identification code (ID) or number, given by the relevant extending agency (if applicable)

200731125
Status
Indicate the status of the Programme/Project at the time of completing this form.

Ongoing

Start date (dd/mm/yyyy)
Indicate the date at which the Programme/Project started or is due to start, if known (e.g. 15/01/2011)

No answer provided

Completion date (dd/mm/yyyy)
Indicate the date at which the Programme/Project was completed or is due to be completed, if known (e.g. 15/01/2011)

No answer provided

Programme/Project co-financing

Additional Information

F. Additional information

The section on additional information is meant to provide an instrument of flexibility in the reporting exercise as well as to enrich the knowledge base of the CRIC on concrete issues faced by country Parties and consequently to make more targeted and specific recommendations to the COP. It allows country Parties to comment or report upon issues that are not covered elsewhere but that are nevertheless of importance within the framework of the implementation of The Strategy and the Convention.

The additional information section allows feedback to be received on the reporting process. It is also meant to accommodate ad hoc COP requests for reporting on specific topics or new reporting requirements deriving from COP deliberations that may supersede existing ones and imply changes in implementation.

The proposed template for reporting is adjusted to the mandate of developed country Parties within the framework of the Convention, as requested by decision 13/COP.9, paragraph 17.

Reporting process-related issues

Financial resources
Could your country count on sufficient financial resources to meet UNCCD reporting obligations?
Yes

Provide an estimate of the amount invested from your country’s national budget into the UNCCD reporting process.
28000 euro

Human resources
How many people were involved in your country in the UNCCD reporting process?
Number of people
95

Estimate the total number of person/day dedicated by these persons to the UNCCD reporting process:
Number of person/day
135

Knowledge
Could your country count on sufficient technical and scientific knowledge to meet UNCCD reporting obligations?
Yes

Participation and consultation
Was a participatory or consultative approach applied to involve all relevant stakeholders in the reporting process?
Yes

Validation meeting
Was a validation meeting held as a tool to integrate stakeholders in the reporting process?
No

PRAIS portal
Did you make use of the training on access and utilisation of the PRAIS portal?
Yes

Identify the difficulties of online reporting, if any (tick as many boxes as necessary and rate the level of importance).

*Other (specify) (max 30 words)*

PDF files can only be uploaded with up-to-date browsers. Information on how exactly SFA and PPS are to be formatted was handed out quite late, long after the documents had been created. We have not heard from the help desk but the Global Project Coordinator has been extremely helpful and attentive.
**Report on specific COP requests – iterative process on indicators**

Decision 13/COP.9, paragraphs 2, 3 and 24, envisages an iterative process to refine the set of performance indicators provisionally adopted by the same decision. As a tool to implement this iterative process, affected country Parties can provide here their suggestions and recommendations for improvement.

Tick the cells only when you have experienced difficulties in reporting on one, or more, indicator(s). Indicate against which of the e-SMART criteria the indicator(s) needs to be improved.

</tbody>
</table>

- The questionnaire in general is too complex and too much information is requested. Compiling the data is extremely time-consuming. The level of detail requested is not available within the responding organizations (e.g. Program and Project Sheets).

- The indicators, methodology and the terms used are in parts unclear or not applicable (see CONS-O-1).

- The huge number of data and inaccuracy regarding the terms and methodology will make it difficult to compare and analyse the national reports.

- The German reporting team has the general impression that many indicators of PRAIS are more applicable in the case of affected countries rather than donor countries. Indicator CONS-O-4 can be taken as an example for this impression.

- There must be a clear definition whether information refers to UNCCD or DLDD.

- Space for further comments is limited and comments must be split up into separate paragraphs.

- The format of PRAIS is not suited for the amount of data requested in the Financial Annex (e.g. more than 1,000 projects in German National Report). This was later solved when uploading Excel files was enabled. However, detailed information on how the spreadsheets are to be formatted was not given until ten days before the deadline, when the documents had long since been created. Available printouts are useless for persons without access to the explanatory reporting guidelines. However, in the course of the last weeks, the format and clarity of the printout have improved. As it turned out, the source of many of our problems was the outdatedness of our browser (IE7 instead of IE8, Chrome or Firefox). It would help if PRAIS raised awareness on this issue as it prevents any kind of uploads into the system.

- Another obstacle is the long response time of the help desk to react to inquired problems: There were some technical problems in the system which prevented a finalisation of the data entry (e.g. uploading documents) and even though the help desk was informed, it took a long time to solve the problem. The Global Project Coordinator on the other hand was extremely helpful and attentive.

- We have created a pdf file with further feedback on PRAIS which we were unable to upload here.

G. Best practices

According to decision 13/COP. 9, Annex V, UNCCD best practices shall be collected according to seven themes: 1. SLM technologies, including adaptation; 2. Capacity building and awareness raising; 3. DLDD and SLM monitoring and assessment/research; 4. Knowledge management and decision support; 5. Policy, legislative, institutional framework; 6. Funding/resource mobilisation; 7. Participation, collaboration and networking.

While themes 2 to 7 represent different elements of the enabling environment needed for the implementation and dissemination/up-scaling of sustainable land management (SLM) technologies (indirect impact), theme 1 comprises all actions on the ground that have a direct impact on desertification, land degradation and drought mitigation.

In particular, as specified in document ICCD/CRIC(8)/5/Add.5, paragraph 12, theme 1 ‘SLM technologies, including adaptation’ refers to SLM technologies that directly contribute to the prevention, mitigation and rehabilitation of desertification and land degradation on cropland, grazing land and woodland, with the aim of improving the livelihoods of affected populations and conserving ecosystem services. Successful implementation of SLM technologies is the base for achieving strategic objectives 1, 2 and 3 of The Strategy. Theme 1 also integrates five of the strategic areas defined by decision 8/COP.4, namely: (a) sustainable land use management, including water, soil and vegetation in affected areas; (b) sustainable use and management of rangelands; (c) development of sustainable agricultural and ranching production systems; (d) development of new and renewable energy sources; and (e) launching of reforestation/afforestation programmes/ intensification of soil conservation programmes.

ICCD/CRIC(8)/5/Add.5 provides definitions for ‘practice’, ‘good practice’ and ‘best practice’. These definitions are included in the common glossary that shall be referred to by Parties and other reporting entities while reporting to UNCCD, according to decision 13/COP.9, paragraph 8.

The template for reporting is based on the general structure for the documentation of best practices contained in ICCD/CRIC(8)/5/Add.5, paragraphs 40 to 43; it is tailored to the documentation of best practices related to theme 1 ‘SLM technologies, including adaptation’.

When reporting on best practices implemented in affected country Parties, developed country Parties are expected to have contacted and coordinated with the corresponding UNCCD NFP, to ensure coherence and lack of duplication in reporting on the practice.

Best Practice

Property rights
Clarify if the technology described in the template, or a part of it, is covered by property rights:

No

If yes, please provide relevant information on the holder of the rights.
(max 100 words)

No answer provided

Section 1. Context of the best practice: frame conditions (natural and human environment)

Title of the best practice
Joint Forestry Management (JFM)

Location (if available, also include a map)
Gorno Badakhshan Autonomous Oblast (GBAO), Tadschikistan

Attachments:
none
If the location has well defined boundaries, specify its extension in hectares
Hectares (ha)
6400000

Estimated population living in the location
Number of people
210000

Prevailing land use within the specified location
- Grazing land
- Woodland
- Unproductive land

Other (specify) (max 30 words)
No answer provided

Brief description of the natural environment within the specified location.
Climate:
(max 50 words)
The prevailing semiarid to arid climate is dominated by the presence of different mountain ranges (see topography). The annual rainfall lies below 200mm for the entire region. The winters are cold, with temperatures falling to -40 degrees in the Eastern Pamirs, and the summers are warm, with temperatures above 30 degrees.

Soil:
(max 50 words)
The soils in the alluvial valleys of the Pamirs are composed of a very thin humus layer. The soil layers are generally not deep, with a high occurrence of stones and sand.

Topography:
(max 50 words)
GBAO is nested within the Pamir mountains, reaching up to 7500m. While the eastern part of GBAO is dominated by a high plateau (4000m), the Western Pamirs are composed of deeply carved valleys, concentrating populated areas on narrow strips of land along the rivers. Due to these topographical features the region is not easily accessible.

Prevailing socio-economic conditions of those living in the location and/or nearby
Income level:
(max 50 words)
The average income per year in Tajikistan is EUR 460. Within Tajikistan, GBAO is the economically poorest province.

Main income sources:
(max 50 words)
Due to a lack of productive income opportunities within GBAO, the main income source are remittances, which are sent to their families by migrant workers in Russia. Besides this, small family farms are maintained for subsistence and small-scale sales of agricultural products.

Land tenure and land use rights:
(max 50 words)
In GBAO land tenure is dominated by smallholders, and land use rights are still in transformation and insecure since the breakdown of the Soviet Union.
Joint Forest Management (JFM) is a participatory approach for the management of forest resources. In GBAO it has been tested and implemented on the forest land belonging to the State Forest Agency (Leskhoz). Through the conclusion of lease contracts (20 years) between the Forestry Agency and local forest tenants the user rights and duties for a specified forest plot are clearly defined and recorded in management plans and annual plans. The Forest Agency receives shares from the harvested products, which is used as a basis for the establishment of a financially sustainable State Forestry Agency. Along with the implementation of JFM, a strong focus is laid on capacity development on all involved levels, from the local forest tenants and the district foresters to the staff of the State Forest Agency. Additionally, the reform of the national forest legislation is supported.

Different schemes have been tested and adapted during several years, before focusing on the actually implemented JFM approach. As a first criterion, this management scheme adapts very well to the prevailing challenges in forest resource management in GBAO. Secondly, it opens up opportunities for improving the situation related to forestry and forest resource use simultaneously on an ecological, economical and social level. And thirdly, there is a high interest from other communities and provinces in adopting the JFM scheme.

With respect to DLDD, the best practice directly contributes to:
- Prevention
- Adaptation
- Rehabilitation

Main problems addressed by the best practice
(max 50 words)
- Inappropriate management of the State forests due to a lack of financial and human resources.
- Energy crisis after the breakdown of the SU. During the Soviet era coal and other fuel materials were provided for a very low price.
- Degradation of natural resources and decreased resilience against natural desasters in GBAO.
- Lack of income for the local livelihoods and dependence of the local economy on imports of forestry products.

Outline specific land degradation problems addressed by the best practice
(max 100 words)
Uncontrolled cuttings of and livestock influence on glacier head and floodplain forests lead to: river bank erosion, increased sand storms and dune formation, disbalance of waterflow due to decreased buffer capacity, loss of biodiversity, soil degradation.

Specify the objectives of the best practice
(max 50 words)
- Reform of the forestry management system: Establishment of a transparent, participatory forestry management system, adapted to current socio-economic framework conditions, which strengthens the State Forestry Agency and gives ownership and motivation to local forest tenants.
Firewood supply and energy-efficient technologies: Legal and sustainable supply of firewood and introduction of adapted energy-efficient technologies for the local population.

Forest rehabilitation: Rehabilitation of natural resources and respectively increased resilience against potential shocks emanating from global climate change.

Economic development: Impulses to local economic growth.

Section 3. Activities

Brief description of main activities, by objective

Objective 1.

(Objective 1. (max 50 words)

- Reform of the forestry management system:
  1. Testing and implementation of Joint Forestry Management schemes including contract, management plan and annual plans for individual tenant plots
  2. Support of the reform of the province State Forestry Agency towards a financially sustainable and transparent extension and control institution

Objective 2.

(Objective 2. (max 50 words)

- Firewood supply and energy-efficient technologies:
  1. Capacity development of the local population on forestry techniques and sustainable management of forests
  2. Capacity development of Forest Agency staff on new rights and duties in the framework of Joint Forestry Management
  3. Market-conform dissemination of energy-efficient technologies (heating and cooking stoves, thermal insulation and solar water heaters).

Objective 3.

(Objective 3. (max 50 words)

- Forest rehabilitation:
  1. Protection, sustainable use and development of remaining forests through Joint Forestry Management and capacity development of the State Forestry Agency
  2. Reforestation of degraded forest plots within the framework of Joint Forestry Management
  3. Afforestation of new forest plots in the floodplains of GBAO within the framework of Joint Forestry Management

Objective 4.

(Objective 4. (max 50 words)

- Economic development: 1. Support of a transparent market on timber and non-timber forest products
  2. Support of the establishment of sales points for forest products
  3. Support of processing activities for local value adding

Short description of the technology

max 250 words

No answer provided

Technical specifications of the technology – if any

max 250 words

No answer provided
Section 4. Institutions/actors involved (collaboration, participation, role of stakeholders)

Name and address of the institution developing the technology

Name
State Forestry Agency of GBAO (Tajikistan)

Deutsche Gesellschaft fuer Technische Zusammenarbeit (GTZ) GmbH

Address
No answer provided

Was the technology developed in partnership?
Yes

If yes, list the partners:
- State Forestry Agency of GBAO (Tajikistan)
- Deutsche Gesellschaft fuer Technische Zusammenarbeit (GTZ) GmbH
- German Development Service (DED)
- Center of International Migration (CIM)

Specify the framework within which the technology was promoted
- Local initiative
- National initiative – government-led
- International initiative

Other (specify) (max 30 words)
No answer provided

Was the participation of local stakeholders, including CSOs, fostered in the development of the technology?
Yes

If yes, list local stakeholders involved:
- Village Organizations (VO) in several villages in GBAO
  - Micro-loan Organization (MLO) Madina
- State Forestry Agency
- State Land Use Committee

For the stakeholders listed above, specify their role in the design, introduction, use and maintenance of the technology, if any.
max 250 words

Village Organizations are entry point for identifying willing tenants for the local management of forest resources. The MLO Madina is the key actor for the dissemination of energy-efficient technologies in GBAO, as they provide local people with micro-loans to afford the innovative technologies. The main partners for the introduction of JFM on province level are the State Forestry Agency and the State Land Use Committee.

Was the population living in the location and/or nearby involved in the development of the technology?
Yes

If yes, by means of what?
- Consultation
- Participatory approaches
Section 5. Contribution to impact

Specify to which strategic objectives of The Strategy the technology contributes
(more than one box can be ticked)

- 1. To improve the living conditions of affected population
- 2. To improve the conditions of affected ecosystems

Describe on-site impacts (the major two impacts by category)
Production or productivity:
1. (max 50 words)
   Forest rehabilitated and biomass increased on JFM plots through livestock exclusion and sustainable cuttings

2. (max 50 words)
   Area covered by forest tree species increased

Socio-economic level (including cultural level):
1. (max 50 words)
   Expenses of tenants for firewood reduced, which frees financial means for other activities

2. (max 50 words)
   State Forestry Agency has accepted business plan for a reform towards financial sustainability and transparency

Environmental level:
1. (max 50 words)
   Resilience of participating communities increased

2. (max 50 words)
   Biodiversity in the JFM area has increased

Other (specify):
1. (max 50 words)
   No answer provided

2. (max 50 words)
   No answer provided

Describe the major two off-site (i.e. not occurring in the location but in the surrounding areas) impacts
1. (max 50 words)
   Huge interest of other communities to join JFM

2. (max 50 words)
   Interest of the National Forestry Agency in adopting lessons learnt from GBAO for the national forestry reform

Impact on biodiversity and climate change
In your opinion does the best practice/technology you have proposed positively impact on biodiversity conservation?
Yes

Explain the reasons:
max 250 words
In your opinion does the best practice/technology you have proposed positively impact on climate change mitigation?
No

Explain the reasons:
max 250 words
The forests in GBAO are comparatively very small and cannot contribute to large-scale effects on the global climate.

In your opinion does the best practice/technology you have proposed positively impact on climate change adaptation?
Yes

Explain the reasons:
max 250 words
No answer provided

Has a cost-benefit analysis been carried out?
No

If yes, summarize its main conclusions:
max 250 words
No answer provided

Section 6. Connection to other UNCCD themes

Specify if the technology relates to one or more of the other UNCCD themes
- Capacity-building and awareness-raising
- Policy; legislative; institutional framework
- Participation, collaboration and networking

Section 7. Adoption and replicability

Was the technology disseminated/introduced to other locations?
Yes

If yes, where? (add as many rows as necessary)
Location:
- Roshtkala and Ishkashim districts of GBAO

Were incentives to facilitate the take up of the technology provided?
Yes

If yes, specify which type of incentives
- Policy or regulatory incentives (for example, related to market requirements and regulations, import/export, foreign investment, research & development support, etc)

Can you identify the three main conditions that led to the success of the presented best practice/technology?
Examples of conditions leading to success may include: highly motivated local governments, farmers organised into well structured cooperatives, extremely favorable weather conditions, etc. For each 'condition of success' you are able to identify, specify whether in your opinion such condition is: (a) linked to the local context and thus cannot be replicated...
elsewhere; (b) replicable elsewhere with some level of adaptation; (c) replicable elsewhere with major adaptation.

1. (max 50 words)
The high pressure of the problems lead to motivation of the State Forestry Agency and the local population to participate in changing the prevailing forestry management system. -> (b)

2. (max 50 words)
Three years of bottom-up testing of approaches and procedures for JFM. -> (b)

3. (max 50 words)
Intensive coaching of the implementation process by GTZ. -> (b)

In your opinion, the best practice/technology you have proposed can be replicated, although with some level of adaptation, elsewhere?
Yes

If yes, at which level?
• Local
• Sub-national
• National
• Subregional
• Regional

Section 8. Lessons learned

Related to human resources
(max 50 words)
• 1. Introduction of JFM is labour intensive and requires a motivated team of field extension workers (mobilizers)
• 2. Capacity development of forestry staff and local tenants must be a priority
• 3. The forest tenants must be carefully chosen and must be willing (and have the capacity) to work on their forest plot

Related to financial aspects
(max 50 words)
• 1. The facilitation of market access for the sale of forest products is essential
• 2. Establishing transparent and non-cyrupt structures for the financial management of the leased forest must be a priority in order to maintain trust in the JFM system from the side of forest tenants and the State Forest Agency
• 3. As the financial benefits of JFM can only be felt after several years, it is crucial to maintain the motivation of the tenants as well as the Forestry Agency

Related to technical aspects
(max 50 words)
• 1. Technical investments and infrastructures require a sustainable system for their long-term maintenance and management (e.g. creation of associations)
• 2. The dissemination of energy-efficient heating and cooking stoves and technologies for local households should only be facilitated via market mechanisms
• 3. On some forest plots lacking water access start-up investments in irrigation technologies can be necessary
Best Practice #2

Property rights
Clarify if the technology described in the template, or a part of it, is covered by property rights:

No

If yes, please provide relevant information on the holder of the rights.
(max 100 words)
No answer provided

Section 1. Context of the best practice: frame conditions (natural and human environment)

Title of the best practice
"Projet Aménagement des Terroirs et Conservation des Ressources Projet Logistique de Transport PATECORE/PLT"

Location (if available, also include a map)
Burkina Faso, almost the entire three provinces of Bam, l'Oubritenga and the Kourwéogo

Attachments:
none

If the location has well defined boundaries, specify its extension in hectares
Hectares (ha)
6281

Estimated population living in the location
Number of people
300000

Prevailing land use within the specified location
- Cropland
- Unproductive land

Other (specify) (max 30 words)
No answer provided

Brief description of the natural environment within the specified location.
Climate:
(max 50 words)
aride, low rain region

Soil:
(max 50 words)
No answer provided

Topography:
(max 50 words)
No answer provided

Prevailing socio-economic conditions of those living in the location and/or nearby
Income level:
(max 50 words)
Main income sources:
(max 50 words)
agriculture, stock farming

Land tenure and land use rights:
(max 50 words)
No answer provided

Short description of the best practice
max 250 words
The "Projet Aménagement de Terroirs et Conservation des Ressources dans le plateau central" (PATECORE), is a project born out of the development cooperation between Germany (KfW, GTZ, DED) and Burkina Faso (Ministry of Agriculture, Water and Fishery). Since 1988, the project has been developing and assisting sustainable land management as a contribution to desertification control in the central part of Burkina Faso. In the course of its existence, PATECORE has tested and applied various approaches and methods (forestry, land use planning "gestion de terroir", village planning) but emphasized Soil and Water Conservation (SWC) and soil fertility management in view of the high demand by the population for these techniques. In the last phase, PATECORE has grown accordingly in terms of achievements (notably construction of stone bunds) but is reduced in terms of the range of activities and personnel.

On the basis of which criteria and/or indicator(s) (not related to The Strategy) the proposed practice and corresponding technology has been considered as ‘best’?
max 100 words
Example for soil and water conservation practice, positive impact on food security and livelihood, high potential for outsaling

Section 2. Problems addressed (direct and indirect causes) and objectives of the best practice

With respect to DLDD, the best practice directly contributes to:
• Prevention
• Rehabilitation

Main problems addressed by the best practice
(max 50 words)
• gradual degradation of the environment and the decline in agricultural productivity (including: loss of plant cover, degradation of arable land, decrease of groundwater)
• poverty food insecurity, migration

Outline specific land degradation problems addressed by the best practice
max 100 words
The traditional methods of production are not sufficient anymore to supply the population with ecological sustainable food and to raise the living standard on its own.

Specify the objectives of the best practice
(max 50 words)
• Soil and Water Conservation (SWC) and soil fertility management
• improve food security
Section 3. Activities

Brief description of main activities, by objective

Objective 1.
(max 50 words)
- "The basic needs (food, wood, water) of the rural population on the central plateau of Burkina Faso are met by the sustainable management of the natural resources"
- Soil and Water Conservation (SWC)
  soil fertility management

Objective 2.
(max 50 words)
- The rural producers have improved the management of natural resources in the project area (see GTZ offer regarding project 2001.2123.6).

Objective 3.
(max 50 words)
- The transition to a more intensive farming system is effectively strengthened through participatory technology development and a farmer supported advisory system. (Quelle: Angebot für 2001.2123.6, Ressourcenerhaltende Bewirtschaftung auf dem Zentralplateau)
- Identificaton of areas with strong pressure to adapt and develop appropriate advice content with innovative contact farmers.
  Demonstrate good advice content through demonstration models and support it demand-driven.
  Agree and describe for each advisory recommendation to the objectives and planned effects and their indicators together with the target groups.

Objective 4.
(max 50 words)
- Rules of use for sustainable management of Community resources (forest, pasture, water) are developed and implemented.
- The awareness for the urgency of the introduction of improved systems of collective use of resources is raised with concerted actions in politicians and competent technical authorities.
  The current legal and administrative framework for decentralized systems of collective use of resources checks for gaps and new proposals for improvement are worked out together with other projects and competent authorities..

Short description of the technology
max 250 words
Soil fertility management techniques: zaï (sowing holes, approx. 15 cm deep and 30 wide, in which the seed and organic fertilizer or compost are put), use of organic fertilisers, especially in the form of compost, usage of improved or imported varieties of cereals and leguminosae, crop rotation and the fight against the parasite Striga hermonthica
  stone works that slow the runoff of rainwater (cords and stone bunds)

Question marked as 'No answer'.

Technical specifications of the technology – if any
max 250 words
No answer provided
Section 4. Institutions/actors involved (collaboration, participation, role of stakeholders)

Name and address of the institution developing the technology
No answer provided

Was the technology developed in partnership?
Yes

If yes, list the partners:
- l'INERA (Institut de l'Environnement et de Recherches Agricoles)

Specify the framework within which the technology was promoted
- National initiative – non-government-led

Other (specify) (max 30 words)
No answer provided

Was the participation of local stakeholders, including CSOs, fostered in the development of the technology?
Yes

If yes, list local stakeholders involved:
- local communities

Question marked as 'No answer'.

For the stakeholders listed above, specify their role in the design, introduction, use and maintenance of the technology, if any.
max 250 words
No answer provided

Was the population living in the location and/or nearby involved in the development of the technology?
Yes

If yes, by means of what?
- Participatory approaches

Other (specify) (max 30 words)
No answer provided

Section 5. Contribution to impact

Specify to which strategic objectives of The Strategy the technology contributes
(more than one box can be ticked)
- 1. To improve the living conditions of affected population
- 2. To improve the conditions of affected ecosystems

Describe on-site impacts (the major two impacts by category)
Production or productivity:
1. (max 50 words)
   “The improved absorption of rain by the soil facilitates in years with unfavourable rainfall full maturity of corn or an increase in yield per unit area in average rainfall years (average, 40%).”

2. (max 50 words)
SWC-measures also provide an enrichment of the groundwater, which causes a better supply of drinking water wells and in many cases allows formerly dry hollows and river banks to grow vegetables again. About 6,000 tons of grain are produced additionally thanks to soil and water conservation.

**Socio-economic level (including cultural level):**
1. (max 50 words)
   The projects generate additional income which inures to the benefit of the whole household and partly remains in the hands of the women.

2. (max 50 words)
   The project has a positive impact on employment: many no longer emigrate, but pursue a market-oriented, intensive management of their land.

**Environmental level:**
1. (max 50 words)
   Through the SWC-measures, the project makes a significant direct contribution to stabilizing the sub-Saharan ecosystem. The soil erosion is reduced and the risk of flooding, erosion and landslide decreased. The better penetration of rainwater into the soil enriches the water table.

2. (max 50 words)
   Along with a better regulated use of community resources, the regeneration of the entire re-vegetation will be improved significantly.

**Other (specify):**
1. (max 50 words)
   The distribution of the SWC-measures on households and fields for women is uniform. Experience shows that no specific women fields are needed in this area, as traditional rules ensure the participation of women in the benefits and the shaping of the measures.

2. (max 50 words)
   The project facilitates the birth of a peasant network.

---

**Question marked as 'No answer'.**

Describe the major two off-site (i.e. not occurring in the location but in the surrounding areas) impacts
1. (max 50 words)
   No answer provided

2. (max 50 words)
   No answer provided

---

**Impact on biodiversity and climate change**

In your opinion does the best practice/technology you have proposed positively impact on biodiversity conservation?

Yes

Explain the reasons:
max 250 words

No answer provided

In your opinion does the best practice/technology you have proposed positively impact on climate change mitigation?

Yes

Explain the reasons:
max 250 words

No answer provided

In your opinion does the best practice/technology you have proposed positively impact on climate change?
adaptation?
Yes

Explain the reasons:
max 250 words

No answer provided

Has a cost-benefit analysis been carried out?
Yes

If yes, summarize its main conclusions:
max 250 words

The micro-and macroeconomic analyses of the costs that mainly consist of subsidies for the creation of contour stone walls, show that after a few years, the benefits outweigh the costs. This was revealed by the microeconomic calculation that the average annual surplus in cereal production was around 250 kg per ha. This result applies to all findings of a study by Kunze (1998) and corresponds to an additional income of about FCFA 25,000 per hectare and year. Considered in macroeconomic terms, the subsidies of a total of EUR 9 million generate a return after only four years, as the annual value of EUR 2.5 million exceeds the imput from that date. Complemented by a total of 1.5 million days worked per year it is an investment subsidy that increases the production in total. The combat of desertification therefore also helps make development action sustainable on a local scale.

Section 6. Connection to other UNCCD themes

Specify if the technology relates to one or more of the other UNCCD themes

- Capacity-building and awareness-raising
- DLDD and SLM monitoring and assessment/research

Section 7. Adoption and replicability

Was the technology disseminated/introduced to other locations?
No answer provided

If yes, where? (add as many rows as necessary)
Location:
No answer provided

Were incentives to facilitate the take up of the technology provided?
No answer provided

If yes, specify which type of incentives
No answer provided

Can you identify the three main conditions that led to the success of the presented best practice/technology?
Examples of conditions leading to success may include: highly motivated local governments, farmers organised into well structured cooperatives, extremely favorable weather conditions, etc. For each ‘condition of success’ you are able to identify, specify whether in your opinion such condition is: (a) linked to the local context and thus cannot be replicated elsewhere; (b) replicable elsewhere with some level of adaptation; (c) replicable elsewhere with major adaptation.  
1. (max 50 words)

The Participatory Technology Development approach is logical and just, already able to integrate local knowledge and products of research and experiments in other areas or countries
2. (max 50 words)
   "To find, encourage and develop initiatives, innovations and ideas native to the area of intervention"

3. (max 50 words)
   No answer provided

**In your opinion, the best practice/technology you have proposed can be replicated, although with some level of adaptation, elsewhere?**
   Yes

**If yes, at which level?**
   - Local
   - Sub-national
   - National

Section 8. Lessons learned

**Related to human resources**
(max 50 words)
   - There is a need for capacity building for local communities and technical staff.

**Related to financial aspects**
(max 50 words)
   - The PATECORE project shows how sustainable land use can produce an enduring impact in an economic view.

**Related to technical aspects**
(max 50 words)
   - 1. The most important instrument for the dissemination of techniques is the farmer network, which has taken on the transfer of knowledge and skills from farmer to farmer.
   - 2. The large-scale dissemination was made relatively easy due to the decentralised structure of the project and due to the farmers' organisation and taking of responsibility for their soil and water conservation work.
