Performance Indicators

Performance indicators are for measuring progress against the five operational objectives of The Strategy, in line with decision 3/COP.8. The year 2008 (the first year of the Strategy) serves as the baseline year.

The GM is requested to report on the following four performance indicators out of the eighteen consolidated performance indicators presented in ICCD/CRIC(8)/5/Add.1 and Add.2.

<table>
<thead>
<tr>
<th>Outcome</th>
<th>Indicator n°</th>
<th>Indicator name</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.3</td>
<td>CONS-O-3</td>
<td>Number of CSOs and science and technology institutions participating in the Convention processes.</td>
</tr>
<tr>
<td>2.5</td>
<td>CONS-O-7</td>
<td>Number of initiatives for synergistic planning/programming of the three Rio Conventions or mechanisms for joint implementation, at all levels.</td>
</tr>
<tr>
<td>3.5</td>
<td>CONS-O-11</td>
<td>Type, number and users of DLDD-relevant knowledge-sharing systems at the global, regional, subregional and national levels described on the Convention website.</td>
</tr>
<tr>
<td>5.1</td>
<td>CONS-O-14</td>
<td>Number of affected country Parties, subregional and regional entities whose investment frameworks, established within the IFS devised by the GM or within other integrated financing strategies, reflect leveraging national, bilateral and multilateral resources for combating desertification and land degradation.</td>
</tr>
</tbody>
</table>

Reporting is guided by means of templates, one for each performance indicator. Within the templates, shaded areas contain information and explanatory texts and white areas are for reporting purposes and need to be filled in by the GM with relevant quantitative data, selection of multiple choice boxes, or narrative information.

With respect to the templates used for the other reporting entities, the reporting templates of the GM, as well as those of the secretariat, include a section on 'harmonization' where synergies and coherence with the reporting on RBM are outlined. Adopted work plans and programmes of work are in fact also structured against the operational objectives and outcome areas of The Strategy.

Specify the multi-year workplan for the GM in force at the time of reporting
2010-2013

Specify the joint work programme for the secretariat and the GM in force at the time of reporting
2010-2011

Operational Objective 1: Advocacy, awareness raising and education

Performance indicator CONS-O-3 for Outcome 1.3

Performance indicator CONS-O-3 for Outcome 1.3
Number of CSOs and science and technology institutions participating in the Convention processes.

Understanding of the indicator
The indicator measures the level of participation of civil society organizations (CSOs) and science and technology institutions (STIs) at the institutional level of the UNCCD (COP, CRIC sub-regional meetings) and, in particular, within the framework of the Integrated Financing Strategy (IFS) devised by the GM. The indicator will outline whether the active involvement of these stakeholders in IFS-related initiatives increases over time and whether the IFS is a valid mechanism for the engagement of, and receiving contributions from, CSOs and STIs. Other reporting entities will complement the information provided by the GM by reporting on the involvement of CSOs and STIs at the field level, in DLDD-related programmes and projects.

Data needed
- The specification of the organizations participating to IFS-related initiatives.
- The specification of the organizations participating to the meetings of the COP and of the CRIC and to regional/subregional meetings
- Only formal engagement is to be considered. Within the IFS, formal engagement is determined/defined by the GM.

Data sources (indicative only)
Registration forms, attendance lists
Overall target
A steady growth in the participation of CSOs and science and technology institutions in the Convention processes is recorded along the implementation period of The Strategy.

Number of CSOs/STIs participating to the IFS of the GM

Contribution to the target
At the time of reporting, is the GM undertaking concrete initiatives to increase and/or facilitate the participation of CSOs and STIs in the IFS process?
Yes

Qualitative assessment
Specify the reasons for the increasing and/or decreasing trend of the participation of CSOs and STIs to the IFS process. (tick as many boxes as necessary and rate the level of importance)
### Reasons for increasing

### Harmonization with RBM reporting

Is reporting on CONS-O-3 coherent with and/or synergistic to the expected accomplishments and corresponding performance indicators under outcome area 1.3 of the workplan?

Coherent with performance indicators?

Yes

If yes, specify how the two are complementing each other.

The GM collects information on CSOs involved in IFS processes at country level

If no, explain any evidence of incongruence and, if possible, provide reasons:

No answer provided

Coherent with operational objective 1?

Is reporting on CONS-O-3 coherent with and/or synergistic to the relevant expected accomplishments under operational objective 1 of the joint work programme?

No
If yes, specify how the two are complementing each other.

No answer provided

If no, explain any evidence of incongruence and, if possible, provide reasons:

CONS-O-3 and JWP 1.3 are dealing with different things. No reference to tools to support CSO engagement in UNCCD processes is foreseen under this indicator.
Performance indicator CONS-O-7 for Outcome 2.5

Number of initiatives for synergistic planning/programming of the three Rio Conventions or mechanisms for joint implementation, at all levels.

Understanding of the indicator

The indicator measures the existence of synergistic processes through the number of instruments (i.e. joint planning/programming and/or operational mechanisms) in place at the national, subregional, regional and global level which foster the introduction of or strengthen the mutually reinforcing measures among the three Rio Conventions and whose establishment has been supported (technically and/or financially) by the GM. The assumption is that the higher the number of enabling instruments in place, the higher the possibility of achieving synergies in implementation. The information provided by the GM will be complemented by the reporting of other entities on synergistic processes at the national, subregional, regional and global level.

Data needed

- Planning/programming documents, information from partnership agreements and programmes/projects.
- Operational mechanisms which have the achievement of joint implementation, synergies, convergence, and the introduction or strengthening of reinforcing measures amongst the Rio Conventions clearly stated in their objectives.

Data sources (indicative only)

- Relevant units within the GM.
- Partnership agreements, global/(sub)regional programmes/projects reports.

Check the glossary for

“Joint planning/programming initiatives”, “Operational mechanisms for joint implementation or mutual reinforcement”, “Partnership agreements’

For an indicative list of activities by Parties to promote synergies among the Rio Conventions, refer to UNEP/CBD/COP/DC/IX/16, Annex II

Overall target

By 2014, each affected country Party has either one joint national plan in place or functional mechanism(s) to ensure synergies among the three Rio Conventions

<table>
<thead>
<tr>
<th>Year</th>

Regarding any enabling instruments
According to the information you have provided above, if you have supported the establishment of one or more enabling instrument(s), reply to the questions below.
Specify the type of joint initiative(s) and/or of mechanism(s) supported (tick as many boxes as necessary)

Joint planning/programming initiatives
- Identification of sectors and policies that could benefit from synergies and cooperation

Other (specify):
  No answer provided

Operational mechanisms for joint implementation or mutual reinforcement
- Other (specify):

Other (specify):
  - Support to the identification of climate change, biodiversity and forestry related financing opportunities
  - Technical support to country and subregions in relation to cc strategies including adaptation, carbon trading and environmental service
  - Mainstreaming of SLM into investment strategies

Frameworks
Specify the framework(s) within which the above support was provided (tick as many boxes as necessary)
- UNCCD-related framework
- Other (specify):

Other (specify):
  TerrAfrica, COMESA, COMIFAC, CPF/UNFF, GDPRD

Type of support
Specify the type of support provided (tick as many boxes as necessary)
- Both technical and financial

List of beneficiaries
List the name(s) of the beneficiary country(ies), UNCCD subregion(s)/region(s) or global initiatives (add as many rows as necessary)
- World
- Western Africa
- Central America
- Guatemala
- Ecuador
- Viet Nam
- Africa

Sources of information
Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.
- GM programme of work for 2008-2009

Attachments:
  none

Contribution to the target
At the time of reporting, has the GM plans for providing support to one or more country(ies), UNCCD subregion(s)/region(s) or globally for the establishment of instruments fostering synergies among the three Rio Conventions?
  Yes

If yes, when?
  2010-2011

If yes, where?
If yes and if known at the time of reporting, to which country(ies)/subregion(s)/region(s)? (add as many rows as necessary) (if globally, write 'global'; if not known leave the reply empty)
Qualitative Assessment
In the case the GM supported the establishment of synergistic planning/programming or mechanisms for joint implementation at the national, subregional, regional and/or global level, identify the major difficulties experienced in the establishment process (tick as many boxes as necessary and rate the level of importance).

**If the GM supported**

<table>
<thead>

Other (specify)

**No answer provided**

Harmonization with RBM reporting
Is reporting on CONS-O-7 coherent with and/or synergistic to the expected accomplishments and corresponding performance indicators under outcome area 2.5 of the workplan?

**Coherent with performance indicators?**

- Yes

**If yes, specify how the two are complementing each other.**

They are almost identical. The information requested under indicator CONS-0-7 is more detailed.

**If no, explain any evidence of incongruence and, if possible, provide reasons:**

**No answer provided**

**Coherent with operational objective 2?**

Is reporting on CONS-O-7 coherent with and/or synergistic to the relevant expected accomplishments under operational objective 2 of the joint work programme?

- No

**If yes, specify how the two are complementing each other.**

**No answer provided**

**If no, explain any evidence of incongruence and, if possible, provide reasons:**

Operational objective 2 of the JWP refers to synergies in terms of elaboration of information material and dissemination of knowledge which CONS-0-7 does not deal with.
Performance indicator CONS-O-11 for Outcome 3.5

Type, number and users of DLDD-relevant knowledge-sharing systems at the global, regional, subregional and national levels described on the Convention website.

Understanding of the indicator
The indicator measures the presence at the subregional, regional and global level of DLDD-related knowledge-sharing processes, through the quantification of the type and number of existing knowledge-sharing systems. Effectiveness of these systems is measured through quantification of their user-base. The indicator will inform to what extent scientific and traditional knowledge, including best practices, are available to and sufficiently shared with end-users. This information will be complemented by the reporting of other reporting entities on existing UNCCD-relevant knowledge-sharing systems at the national level.

Data needed
- Information from websites.
- Only DLDD-relevant knowledge-sharing systems and networks shall be considered.

Data sources (indicative only)
Relevant organizations at the subregional, regional and global level.

Check the glossary for
‘knowledge-sharing system’, ‘PRAIS’

Overall target
By 2010 the Convention website has been restructured and includes a thematic database on knowledge-sharing systems as part of the PRAIS.

Knowledge-sharing systems
List any DLDD-relevant ‘knowledge-sharing system’ at the country level you are aware of, providing an Internet link and estimated number of users per year (add as many rows as necessary)

<table>
<thead>
<tr>
<th>Name of the System</th>
<th>Internet Link</th>

</table>
Operational Objective 5: Financing and technology transfer

Performance indicator CONS-O-14 for Outcome 5.1

Number of affected country Parties, subregional and regional entities whose investment frameworks, established within the IFS devised by the GM or within other integrated financing strategies, reflect leveraging national, bilateral and multilateral resources for combating desertification and land degradation.

Understanding of the indicator

The indicator measures the presence of integrated financing processes allowing the leverage of national, bilateral and multilateral resources for combating desertification and land degradation, through the quantification of investment frameworks financially and/or technically supported by the GM, within the IFS devised by the GM, in affected countries and/or in subregions/regions. The information provided by the GM will be complemented by the reporting of other reporting entities on the establishment of integrated investment frameworks at national, subregional and regional level.

Data needed

- Investment frameworks documents.
- Only investment frameworks prepared along the guidelines devised within the IFS devised by the GM shall be considered.

Data sources (indicative only)

- Relevant units within the GM.
- Relevant national ministries, programmes/projects documents.

Check the glossary for

‘IFS’, ‘leveraging’, ‘integrated investment framework’

Overall target

By 2014, at least 50 per cent of affected country Parties, subregional and regional entities have developed integrated investment frameworks.

Number of integrated investment frameworks supported

Number of integrated investment frameworks supported by the GM within the IFS, by geographical level

<table>

Other (specify):
In order to provide support to all countries/subregions seeking assistance in the development of SLM integrated investment framework, the GM needs to be equipped with more human/financial resources

Harmonization with RBM reporting
Coherent with performance indicators?
Is reporting on CONS-O-14 coherent with and/or synergistic to the expected accomplishments and corresponding performance indicators under outcome area 5.1 of the workplan?

Yes

**If yes, specify how the two are complementing each other.**

Under outcome area 5.1 of the Workplan the RBM of the GM is providing a more detailed illustration of the various steps leading to the development of integrated investment frameworks

**If no, explain any evidence of incongruence and, if possible, provide reasons:**

No answer provided

**Coherent with operational objective 3?**

Is reporting on CONS-O-14 coherent with and/or synergistic to the relevant expected accomplishments under operational objective 3 of the joint work programme?

No

**If yes, specify how the two are complementing each other.**

No answer provided

**If no, explain any evidence of incongruence and, if possible, provide reasons:**

There is no operational objective 3 in the JWP
D. Standard Financial Annex

The CRIC has recommended that financial reporting be based on a standard financial reporting format to be used by affected country Parties and their development partners. It also indicated that emphasis in reports should be put on financial matters and also on an analysis of the impact of the activities undertaken (ICCD/CRIC(8)/5).

The purpose of the Standard Financial Annex (SFA) is to consolidate information on resources mobilized by affected country Parties and their development partners under the framework of relevant strategies and action programmes. It facilitates the aggregation of data on financial commitments, financial flows and resources available by all relevant funding sources for activities related to the implementation of the Convention. It also helps minimize double counting in financial statistics (ICCD/CRIC(8)/5/Add.4).

The SFA is to be used by each country Party and other reporting entities to list all financial commitments they have made during the reporting period in support of institutions, programmes, projects, as well as other relevant initiatives undertaken at national or international level for the implementation of the Convention.

More specifically, for each relevant financial commitment or allocation made in the reporting period, the SFA requires a minimum set of data grouped as follows:
(a) Identification, i.e. data required to identify the reporting entity, the funding source and the activity financed;
(b) Basic data, i.e. data specifying the amount and type of financial commitment made, as well as the recipient country, region, and/or organization, and the funding period, if applicable;
(c) Classification, i.e. categorization of the funded activity according to the Rio Markers for desertification, and the UNCCD Relevant Activity Codes (RACs). [1]

The compilation of the SFA is guided by means of a template, which responds to the recommendations of CRIC 7, and builds on the GM methodological guide for financial reporting [2] presented to CRIC 6 as part of the report of the intergovernmental Ad Hoc Working Group to improve the procedures for communication of information.

Within the template, shaded areas contain information and explanatory texts, while white areas are for reporting purposes and need to be filled in by the reporting entities with relevant data or narrative information.

Decision 13/COP.9, paragraph 8, invites country Parties and other reporting entities to refer to common terminology and definitions. Therefore, these guidelines should be read in conjunction with the comprehensive glossary presented in a separate document.

[1] More detailed guidelines on the use of the Rio Markers and the RACs are provided in a separate document called Quick Reference Guide. Additional references can be found in the following documents:
- Relevant Activity Codes: http://www.global-mechanism.org/RACs.pdf
The abovementioned documents can also be downloaded from the PRAIS portal at the following Internet address: http://www.unccd-prais.com

[2] Improving the procedures for communication of information as well as the quality and format of reports to be submitt
E. Programme and Project Sheet

Programme and Project Sheets (PPS) are used to provide more detailed information on programmes or projects undertaken or completed in the reporting period. This includes programmes and projects in the pipeline, as well as final proposals submitted for funding to internal or external funding sources. All country Parties and other reporting entities involved in the financing, coordination or implementation of relevant programmes and projects are requested to prepare a PPS for each of them, and to attach them to their official report to the UNCCD.

The compilation of the PPS is guided by means of a template. These templates are intended to collect a minimum set of qualitative and quantitative data to facilitate the analysis of funding and investment flows, and the production of better financial statistics related to UNCCD implementation (ICCD/CRIC(8)/5/Add.4), with a view to enabling the CRIC to undertake an objective review of progress in the implementation of the Convention and The Strategy. The PPS also facilitate the computation of certain performance and impact indicators.

A distinctive feature of the PPS is that it allows country Parties and other reporting entities to specify which strategic and operational objectives of The Strategy are targeted by each programme or project. In addition, it allows for individual programme or project components to be categorized using the Rio Markers for desertification and Relevant Activity Codes (RACs).

Furthermore, the PPS can be used to indicate whether the objectives of other Rio Conventions (i.e. the United Nations Convention on Biological Diversity, UNCBD – and the United Nations Framework Convention on Climate Change, UNFCCC) are also addressed by the programme or project. This is done through the use of the biodiversity and climate change Rio Markers, respectively.

The PPS offers an opportunity to increase the visibility of relevant programmes and projects, thereby creating the conditions for a better sharing of experiences and lessons, as well as the transfer of knowledge in general. It also favours collaboration and networking by facilitating the identification of potential synergies.

Lastly, the PPS also allows country Parties and other reporting entities to provide a narrative description of the expected or achieved results. This information will facilitate the qualitative assessment of progress in the implementation of The Strategy, including on returns on investment. The CRIC will use the analysis of financial information originating from the PPS to assess results, performance and impacts.

To minimize the reporting burden and avoid discrepancies in the information annexed to the reports of different entities, it is recommended that project partners identify the most suitable ways to coordinate among themselves the preparation of PPS to ensure that consistent data are reported for the same projects. It would also be advisable to compile just one PPS for large “umbrella” programmes, instead of separate PPS for each small project stemming from them.

In the PPS template, shaded areas contain information and explanatory texts, while white areas are for reporting purposes and need to be filled in by country Parties and other reporting entities with relevant data or narrative information.

[1] Such as performance indicators CONS-O-3, CONS-O-17, and CONS-O-18

[2] More detailed guidelines on the use of the Rio Markers are provided in a separate document called Quick Reference Guide. Additional references can be found in the following documents:

### Programme/Project #5

#### Title
Enter the Programme/Project title, and sub-title if applicable

**COUNTRY LEVEL ASSISTANCE TO UGANDA**

#### Organization(s)
Enter the full name and acronym of the reporting organization

- **Global Mechanism**
  
  *No answer provided*

#### Role of the Organization(s) in the Programme/Project
Indicate the role of the reporting organization in the Programme /Project (e.g. funding agency, implementing agency, etc.)

- **Funder (non ODA)**

#### Civil Society Organizations (CSOs) and Science & Technology Institutions (STIs)
Enter the name(s) of Civil Society Organizations (CSOs), including Non-Governmental Organizations, research institutions and-or Science & Technology Institutions (STIs) involved in the Programme/Project. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-3.

  *No answer provided*

#### Beneficiary Country(ies) or Sub Region(s)
Enter the name of the Country(ies), Subregion(s) and/or Region(s) benefiting from the Programme/Project. Indicate “Global” in the absence of a specific geographical focus

- **Uganda**

#### Target Area size / administrative unit
Indicate the total area expressed in number of hectares (numeric field. Do not use abbreviations, symbols or decimals). Also indicate the administrative unit targeted in the project area, if known, by the Programme/Project

- **Area Size**
  
  *No answer provided*

- **Administrative Unit**
  
  *No answer provided*

#### Target Group
Enter the different stakeholders, such as individuals, groups, or organizations, positively affected through their involvement in the implementation of an initiative/project/programme

*No answer provided*

#### Beneficiaries
Enter the total number of people benefitting from the Programme/Project, if known (numeric field. Do not use abbreviations, symbols or decimals)

*No answer provided*

#### Identification Code
Enter the Programme/Project identification code (ID) or number, given by the relevant extending agency (if applicable)

**GM800**

#### Status
Indicate the status of the Programme/Project at the time of completing this form.

**Completed**

#### Start date (dd/mm/yyyy)
Indicate the date at which the Programme/Project started or is due to start, if known (e.g. 15/01/2011)
Completion date (dd/mm/yyyy)
Indicate the date at which the Programme/Project was completed or is due to be completed, if known (e.g. 15/01/2011)
30/04/2009

### Programme/Project Components

Indicate the specific Programme/Project components, if known, as specified in the related documentation. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-18.

**Support to the development of gum arabic market chain**

**Currency, Amount**

Indicate the currency denomination (e.g. EUR, USD, YEN, etc.)

Indicate the amount allocated to each Programme/Project component (numeric field. Do not use abbreviations, symbols or decimals)

- 10000 US Dollar

**Rio Marker for desertification**

Assign the appropriate Rio Marker for desertification to each Programme/Project component (refer to the Rio Markers guidance note for more information, examples and instructions)

- 3

**Relevant Activity Codes (RACs)**

Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the RACs guidance note for more information, examples and instructions)

- 2.2.3 Drivers and Incentives

### Programme/Project Components

Indicate the specific Programme/Project components, if known, as specified in the related documentation. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-18.

**Technical backstopping**

**Currency, Amount**

Indicate the currency denomination (e.g. EUR, USD, YEN, etc.)

Indicate the amount allocated to each Programme/Project component (numeric field. Do not use abbreviations, symbols or decimals)

- 20000 US Dollar

**Rio Marker for desertification**

Assign the appropriate Rio Marker for desertification to each Programme/Project component (refer to the Rio Markers guidance note for more information, examples and instructions)

- 3

**Relevant Activity Codes (RACs)**

Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the RACs guidance note for more information, examples and instructions)

- 2.2 Enabling Activities

### Programme/Project Components

Indicate the specific Programme/Project components, if known, as specified in the related documentation. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-18.

**Participation at CRIC**

**Currency, Amount**

Indicate the currency denomination (e.g. EUR, USD, YEN, etc.)

Indicate the amount allocated to each Programme/Project component (numeric field. Do not use abbreviations, symbols or decimals)

- 6024 US Dollar

**Rio Marker for desertification**

Assign the appropriate Rio Marker for desertification to each Programme/Project component (refer to the Rio Markers guidance note for more information, examples and instructions)

- 3

**Relevant Activity Codes (RACs)**
Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the RACs guidance note for more information, examples and instructions)

- 2.1.3 Consultative platforms

Programme/Project Components

Indicate the specific Programme/Project components, if known, as specified in the related documentation. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-18.

National workshop on engagement of CSOs in combating desertification and SLM

Currency, Amount

Indicate the currency denomination (e.g. EUR, USD, YEN, etc.)

Indicate the amount allocated to each Programme/Project component (numeric field. Do not use abbreviations, symbols or decimals)

12500 US Dollar

Rio Marker for desertification

Assign the appropriate Rio Marker for desertification to each Programme/Project component (refer to the Rio Markers guidance note for more information, examples and instructions)

3

Relevant Activity Codes (RACs)

Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the RACs guidance note for more information, examples and instructions)

- 2.1.3 Consultative platforms
- 2.2.1 Capacity-Building

Programme/Project Components

Indicate the specific Programme/Project components, if known, as specified in the related documentation. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-18.

SLM related workshops and studies

Currency, Amount

Indicate the currency denomination (e.g. EUR, USD, YEN, etc.)

Indicate the amount allocated to each Programme/Project component (numeric field. Do not use abbreviations, symbols or decimals)

42098 US Dollar

Rio Marker for desertification

Assign the appropriate Rio Marker for desertification to each Programme/Project component (refer to the Rio Markers guidance note for more information, examples and instructions)

3

Relevant Activity Codes (RACs)

Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the RACs guidance note for more information, examples and instructions)

- 3.2.6 Land Conservation
- 3.2.8 Sustainable Land Management

Programme/Project Components

Indicate the specific Programme/Project components, if known, as specified in the related documentation. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-18.

Technical cooperation (GM in a kind support including travel)

Currency, Amount

Indicate the currency denomination (e.g. EUR, USD, YEN, etc.)

Indicate the amount allocated to each Programme/Project component (numeric field. Do not use abbreviations, symbols or decimals)

424846 US Dollar

Rio Marker for desertification

Assign the appropriate Rio Marker for desertification to each Programme/Project component (refer to the Rio Markers guidance note for more information, examples and instructions)

3

Relevant Activity Codes (RACs)

Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the RACs guidance note for more information, examples and instructions)
**Expected or achieved results**

Provide information on the results achieved or expected from the implementation of the Programme/Project.

- Capacity increased of actors involved in resource mobilization for the implementation of the SLM and fight against desertification was strengthened
- SLM approaches are integrated into political processes

**Sources of information**

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

Designing Integrated Financial Strategies (DIFS) Backstopping in Cambodia
Currency, Amount
Indicate the currency denomination (e.g. EUR, USD, YEN, etc.)
**Indicate the amount allocated to each Programme/Project component (numeric field. Do not use abbreviations, symbols or decimals)**

- **7200 US Dollar**
- **Rio Marker for desertification**

Assign the appropriate [Rio Marker for desertification](guidance note) to each Programme/Project component (refer to the [Rio Markers guidance note](guidance note) for more information, examples and instructions)

- **3**

**Relevant Activity Codes (RACs)**

Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the [RACs guidance note](guidance note) for more information, examples and instructions)

- **2.2.1 Capacity-Building**
- **2.2.4 Action Programmes**
- **2.2.5 Integrated Financing Strategies**

---

**Programme/Project Components**

Indicate the specific Programme/Project components, if known, as specified in the related documentation. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-18.

- **DIFS in Cambodia**

**Currency, Amount**

Indicate the currency denomination (e.g. EUR, USD, YEN, etc.)

Indicate the amount allocated to each Programme/Project component (numeric field. Do not use abbreviations, symbols or decimals)

- **7000 US Dollar**
- **Rio Marker for desertification**

Assign the appropriate [Rio Marker for desertification](guidance note) to each Programme/Project component (refer to the [Rio Markers guidance note](guidance note) for more information, examples and instructions)

- **3**

**Relevant Activity Codes (RACs)**

Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the [RACs guidance note](guidance note) for more information, examples and instructions)

- **1.2.1 Traditional Knowledge and Best Practices**
- **2.2 Enabling Activities**

---

**Programme/Project Components**

Indicate the specific Programme/Project components, if known, as specified in the related documentation. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-18.

- **Technical cooperation (GM in a kind support including travel)**

**Currency, Amount**

Indicate the currency denomination (e.g. EUR, USD, YEN, etc.)

Indicate the amount allocated to each Programme/Project component (numeric field. Do not use abbreviations, symbols or decimals)

- **154012 US Dollar**
- **Rio Marker for desertification**

Assign the appropriate [Rio Marker for desertification](guidance note) to each Programme/Project component (refer to the [Rio Markers guidance note](guidance note) for more information, examples and instructions)

- **3**

**Relevant Activity Codes (RACs)**

Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the [RACs guidance note](guidance note) for more information, examples and instructions)

- **No answer provided**

---

**Expected or achieved results**

Provide information on the results achieved or expected from the implementation of the Programme/Project.

- **No answer provided**

---

**Sources of information**

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.
• GM audited financial statements
• Country program document for Cambodia

Programme/Project #9

**Title**
Enter the Programme/Project title, and sub-title if applicable

*Subregional level assistance to South – Central Asia*

**Organization(s)**
Enter the full name and acronym of the reporting organization

- **Global Mechanism**
  
  No answer provided

**Role of the Organization(s) in the Programme/Project**
Indicate the role of the reporting organization in the Programme/Project (e.g. funding agency, implementing agency, etc.)

- **Funder (non ODA)**

**Civil Society Organizations (CSOs) and Science & Technology Institutions (STIs)**
Enter the name(s) of Civil Society Organizations (CSOs), including Non-Governmental Organizations, research institutions and-or Science & Technology Institutions (STIs) involved in the Programme/Project. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-3.

  No answer provided

**Beneficiary Country(ies) or Sub Region(s)**
Enter the name of the Country(ies), Subregion(s) and/or Region(s) benefiting from the Programme/Project. Indicate “Global” in the absence of a specific geographical focus

- Kazakhstan
- Kyrgyzstan
- Tajikistan
- Turkmenistan
- Uzbekistan

**Target Area size / administrative unit**
Indicate the total area expressed in number of hectares (numeric field. Do not use abbreviations, symbols or decimals). Also indicate the administrative unit targeted in the project area, if known, by the Programme/Project

  No answer provided

**Administrative Unit**

  No answer provided

**Target Group**
Enter the different stakeholders, such as individuals, groups, or organizations, positively affected through their involvement in the implementation of an initiative/project/programme

  No answer provided

**Beneficiaries**
Enter the total number of people benefitting from the Programme/Project, if known (numeric field. Do not use abbreviations, symbols or decimals)

  No answer provided

**Identification Code**
Enter the Programme/Project identification code (ID) or number, given by the relevant extending agency (if applicable)

*GM-062*

**Status**
Indicate the status of the Programme/Project at the time of completing this form.

Relevant Activity Codes (RACs)

Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the RACs guidance note for more information, examples and instructions)

No answer provided

Programme/Project Components

Indicate the specific Programme/Project components, if known, as specified in the related documentation. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-18.

Technical cooperation (in kind support including travel)

Currency, Amount

Indicate the currency denomination (e.g. EUR, USD, YEN, etc.)

Indicate the amount allocated to each Programme/Project component (numeric field. Do not use abbreviations, symbols or decimals)

350080 US Dollar

Rio Marker for desertification

Assign the appropriate Rio Marker for desertification to each Programme/Project component (refer to the Rio Markers guidance note for more information, examples and instructions)

3

Relevant Activity Codes (RACs)

Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the RACs guidance note for more information, examples and instructions)

No answer provided

Expected or achieved results

Provide information on the results achieved or expected from the implementation of the Programme/Project.

No answer provided

Sources of information

Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

- GM audited financial statements

Beneficiary Country(ies) or Sub Region(s)
Enter the name of the Country(ies), Subregion(s) and/or Region(s) benefiting from the Programme/Project. Indicate “Global” in the absence of a specific geographical focus

- Occupied Palestinian Territory

Target Area size / administrative unit
Indicate the total area expressed in number of hectares (numeric field. Do not use abbreviations, symbols or decimals). Also indicate the administrative unit targeted in the project area, if known, by the Programme/Project

Area Size
- No answer provided

Administrative Unit
- No answer provided

Target Group
Enter the different stakeholders, such as individuals, groups, or organizations, positively affected through their involvement in the implementation of an initiative/project/programme

- No answer provided

Beneficiaries
Enter the total number of people benefitting from the Programme/Project, if known (numeric field. Do not use abbreviations, symbols or decimals)

- No answer provided

Identification Code
Enter the Programme/Project identification code (ID) or number, given by the relevant extending agency (if applicable)

- 275

Status
Indicate the status of the Programme/Project at the time of completing this form.

- Ongoing

Start date (dd/mm/yyyy)
Indicate the date at which the Programme/Project started or is due to start, if known (e.g., 15/01/2011)
Completion date (dd/mm/yyyy)
Indicate the date at which the Programme/Project was completed or is due to be completed, if known (e.g. 15/01/2011)
31/12/2012

Programme/Project co-financing

Source
Provide the full name and acronym of all co-financing organisations
- Global Mechanism

Other
No answer provided

Currency, Amount
For each co-financing, indicate the currency denomination used (e.g. EUR, USD, YEN, etc.)
Indicate the amount of funding provided by each co-financing organisation (numeric field. Do not use abbreviations, symbols or decimals)
156316 US Dollar

UN Conventions’ Rio Markers
Assign the appropriate Rio Marker to the Programme/Project (refer to the Rio Markers guidance note for more information, examples and instructions)

Strategic objectives
Indicate which strategic objective of the UNCCD 10-Year Strategy is addressed by the Programme/Project
- 4

Operational objectives
Indicate which operational objective of the UNCCD 10-Year Strategy is addressed by the Programme/Project
- 1
- 5

Programme/Project Objectives
Indicate the objectives pursued by the Programme/Project, as specified in the related documentation, choosing from the list of purpose codes provided. The OECD list of purpose is also available at the following link: http://www.oecd.org/document/21/0,3343,en_2649_34447_1914325_1_1_1_1,00.html.
- 31110 Agricultural policy and administrative management
- 31193 Agricultural financial services

Programme/Project Components

Programme/Project Components
Indicate the specific Programme/Project components, if known, as specified in the related documentation. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-18.

Accra Workshop

Currency, Amount
Indicate the currency denomination (e.g. EUR, USD, YEN, etc.)
Indicate the amount allocated to each Programme/Project component (numeric field. Do not use abbreviations, symbols or decimals)

13741 US Dollar

Rio Marker for desertification
Assign the appropriate Rio Marker for desertification to each Programme/Project component (refer to the Rio Markers guidance note for more information, examples and instructions)

3

Relevant Activity Codes (RACs)
Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the RACs guidance note for more information, examples and instructions)

• 3.2.8 Sustainable Land Management
• 1.1.4 Financial Tracking

Programme/Project Components
Indicate the specific Programme/Project components, if known, as specified in the related documentation. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-18.

Technical cooperation (GM in-kind support including travel)

Currency, Amount
Indicate the currency denomination (e.g. EUR, USD, YEN, etc.)
Indicate the amount allocated to each Programme/Project component (numeric field. Do not use abbreviations, symbols or decimals)

550131 US Dollar

Rio Marker for desertification
Assign the appropriate Rio Marker for desertification to each Programme/Project component (refer to the Rio Markers guidance note for more information, examples and instructions)

3

Relevant Activity Codes (RACs)
Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the RACs guidance note for more information, examples and instructions)

No answer provided

Expected or achieved results
Provide information on the results achieved or expected from the implementation of the Programme/Project.

• The Financial diagnostic reports and resource mobilization strategies for the three countries’ CSIFs were endorsed
• Exchange of information and lessons on SLM financing in the three countries, especially with regard to “home-grown solutions”
• The three countries now fully understand the actions to talk in order to fund implementation of their respective CSIFs

Sources of information
Specify the sources used to extract the information provided above (add as many rows as necessary). If reporting online, you may also upload relevant documents.

- **Relevant Activity Codes (RACs)**
  - Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the [RACs guidance note](#) for more information, examples and instructions)
  

---

### Expected or achieved results

Provide information on the results achieved or expected from the implementation of the Programme/Project.

- The capacities of stakeholders involved in resource mobilization for UNCCD implementation in Mesoamerican countries have been strengthened through DiFS workshop.
- The participation of CSOS in resource mobilization strategies in Mesoamerica has been improved through the development of a CSO UNCCD engagement strategy.
- The issues of SLM have been integrated into the Mesoamerican Agro Environmental and Health Strategy (ERAS) which has been endorsed by the Mesoamerican Presidential Summit.
- SLM issues have been mainstreamed into the documents for the development of the Mesoamerican Climate Change Strategy.
- A Mesoamerican Investment Promotion Platform for SLM (PIMAST) has been designed and endorsed by Governments.
- Resources were mobilized in collaboration with FAO to support the design of IFS in all Central American countries.

Strategic objectives
Indicate which strategic objective of the UNCCD 10-Year Strategy is addressed by the Programme/Project

• 4

Operational objectives
Indicate which operational objective of the UNCCD 10-Year Strategy is addressed by the Programme/Project

• 4
• 5

Programme/Project Objectives
Indicate the objectives pursued by the Programme/Project, as specified in the related documentation, choosing from the list of purpose codes provided. The OECD list of purpose is also available at the following link: http://www.oecd.org/document/21/0,3343,en_2649_34447_1914325_1_1_1_1,00.html

• 31110 Agricultural policy and administrative management

Programme/Project Components

Indicate the specific Programme/Project components, if known, as specified in the related documentation. Note: This
information should be taken into account in the computation of performance indicator no. CONS-O-18.

Strategy for strengthening CSOs in Mercosur countries

Currency, Amount
Indicate the currency denomination (e.g. EUR, USD, YEN, etc.)
Indicate the amount allocated to each Programme/Project component (numeric field. Do not use abbreviations, symbols or decimals)

13800 US Dollar

Rio Marker for desertification
Assign the appropriate Rio Marker for desertification to each Programme/Project component (refer to the Rio Markers guidance note for more information, examples and instructions)

3

Relevant Activity Codes (RACs)
Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the RACs guidance note for more information, examples and instructions)

• 2.1.5 Synergies

Programme/Project Components
Indicate the specific Programme/Project components, if known, as specified in the related documentation. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-18.

DIFS workshop for Mercosur countries

Currency, Amount
Indicate the currency denomination (e.g. EUR, USD, YEN, etc.)
Indicate the amount allocated to each Programme/Project component (numeric field. Do not use abbreviations, symbols or decimals)

45000 US Dollar

Rio Marker for desertification
Assign the appropriate Rio Marker for desertification to each Programme/Project component (refer to the Rio Markers guidance note for more information, examples and instructions)

3

Relevant Activity Codes (RACs)
Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the RACs guidance note for more information, examples and instructions)

• 2.1.3 Consultative platforms
• 2.2.5 Integrated Financing Strategies

Technical cooperation (GM in a kind support including travel)

Currency, Amount
Indicate the currency denomination (e.g. EUR, USD, YEN, etc.)
Indicate the amount allocated to each Programme/Project component (numeric field. Do not use abbreviations, symbols or decimals)

299921 US Dollar

Rio Marker for desertification
Assign the appropriate Rio Marker for desertification to each Programme/Project component (refer to the Rio Markers guidance note for more information, examples and instructions)

3

Relevant Activity Codes (RACs)
Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the RACs guidance note for more information, examples and instructions)

• No answer provided

Expected or achieved results
Provide information on the results achieved or expected from the implementation of the Programme/Project.

• The capacities of stakeholders involved in resource mobilization for UNCCD implementation in Mercosur countries have been strengthened through DIFS workshop
• The participation of CSOS in UNCCD Mercosur UNCCD Strategy has been improved

Indicate the specific Programme/Project components, if known, as specified in the related documentation. Note: This
Workshop in Mali

Currency, Amount

Indicate the currency denomination (e.g. EUR, USD, YEN, etc.)

Indicate the amount allocated to each Programme/Project component (numeric field. Do not use abbreviations, symbols or decimals)

47,000 US Dollar

Rio Marker for desertification

Assign the appropriate Rio Marker for desertification to each Programme/Project component (refer to the Rio Markers guidance note for more information, examples and instructions)

3

Relevant Activity Codes (RACs)

Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the RACs guidance note for more information, examples and instructions)

- 2.1.3 Consultative platforms

Programme/Project Components

Indicate the specific Programme/Project components, if known, as specified in the related documentation. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-18.

Promotion of gum Arabic exports from Mali

Currency, Amount

Indicate the currency denomination (e.g. EUR, USD, YEN, etc.)

Indicate the amount allocated to each Programme/Project component (numeric field. Do not use abbreviations, symbols or decimals)

12,000 US Dollar

Rio Marker for desertification

Assign the appropriate Rio Marker for desertification to each Programme/Project component (refer to the Rio Markers guidance note for more information, examples and instructions)

3

Relevant Activity Codes (RACs)

Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the RACs guidance note for more information, examples and instructions)

- 2.2.3 Drivers and Incentives

Programme/Project Components

Indicate the specific Programme/Project components, if known, as specified in the related documentation. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-18.

Technical backstopping

Currency, Amount

Indicate the currency denomination (e.g. EUR, USD, YEN, etc.)

Indicate the amount allocated to each Programme/Project component (numeric field. Do not use abbreviations, symbols or decimals)

22,000 US Dollar

Rio Marker for desertification

Assign the appropriate Rio Marker for desertification to each Programme/Project component (refer to the Rio Markers guidance note for more information, examples and instructions)

3

Relevant Activity Codes (RACs)

Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the RACs guidance note for more information, examples and instructions)

- 2.2.8 Partnership Building

Programme/Project Components

Indicate the specific Programme/Project components, if known, as specified in the related documentation. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-18.

Implementation of country program support

Currency, Amount

Indicate the currency denomination (e.g. EUR, USD, YEN, etc.)

### Relevant Activity Codes (RACs)

**Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the RACs guidance note for more information, examples and instructions)**

- 1.1 Monitoring
- 2.1.3 Consultative platforms
- 2.2.1 Capacity-Building
Assign the appropriate Rio Marker for desertification to each Programme/Project component (refer to the Rio Markers guidance note for more information, examples and instructions).

No answer provided

Relevant Activity Codes (RACs)
Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the RACs guidance note for more information, examples and instructions).

- 2.2.9 Project Development

Programme/Project Components
Indicate the specific Programme/Project components, if known, as specified in the related documentation. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-18.

Study on synergies between AFOLU and SLM investments

Currency, Amount
Indicate the currency denomination (e.g. EUR, USD, YEN, etc.)
Indicate the amount allocated to each Programme/Project component (numeric field. Do not use abbreviations, symbols or decimals)

Relevant Activity Codes (RACs)
Indicate all the Relevant Activity Codes (RACs) that may apply to the Programme/Project components (refer to the RACs guidance note for more information, examples and instructions).

- 2.1.5 Synergies

Programme/Project Components
Indicate the specific Programme/Project components, if known, as specified in the related documentation. Note: This information should be taken into account in the computation of performance indicator no. CONS-O-18.

Support to the implementation of the IFS approach
Synergies between forestry and SLM financing
Examination of the role of micro financing in forestry
Identification of trade related financing instruments relevant for SLM
Capacity building and program support
Synergies between climate change financing and SLM
FIELD IT support and technical maintenance
Development of a study on financing policy instruments in collaboration with TerrAfrica
Technical cooperation (GM in kind support including travel)
Knowledge management, communication material and publications

Currency, Amount
Indicate the currency denomination (e.g. EUR, USD, YEN, etc.)
Indicate the amount allocated to each Programme/Project component (numeric field. Do not use abbreviations, symbols or decimals)

Additional Information

F. Additional information

The section on additional information is meant to provide an instrument of flexibility in the reporting exercise as well as to enrich the knowledge base of the CRIC on concrete issues faced by those entities reporting to the Convention and consequently to make more targeted and specific recommendations to the COP. In general, it allows commenting or reporting upon issues that are not covered elsewhere but that are nevertheless of importance within the framework of the implementation of The Strategy and the Convention.

The additional information section allows feedback to be received on the reporting process. It is also meant to accommodate ad hoc COP requests for reporting on specific topics or new reporting requirements deriving from COP deliberations that may supersede existing ones and imply changes in implementation.

The proposed template for reporting is adjusted to the mandate of the GM, as requested by decision 13/COP.9, paragraph 17 of the attachment; in particular, it responds to the request under paragraph 7 of the attachment to provide in the GM’s report additional information relating to the reporting process.

Reporting process-related issues

Financial resources
Did the GM provide financial support to affected country Parties to meet UNCCD reporting obligations?

Yes

Provide an estimate of the amount invested by your organization into the UNCCD reporting process.

500000 US Dollar

Human resources assigned to assist country Parties and other reporting entities during the reporting process
How many people were involved in the GM in the UNCCD reporting process?

15

Estimate the total number of person/day dedicated by these people to the UNCCD reporting process:

No answer provided

Knowledge
Could the GM count on sufficient in-house technical and scientific knowledge to meet UNCCD reporting obligations?

Yes

PRAIS portal
Did the GM make use of the training on access and utilization of the PRAIS portal?

Yes

Identify the difficulties of online reporting, if any (tick as many boxes as necessary and rate the level of importance).

Other (specify):

System malfunctions on commonly used web browser (e.g. Internet Explorer)
Accommodation of specific requests within COP decisions

Report on specific COP requests – iterative process on indicators
Decision 13/COP.9, paragraphs 2, 3 and 24 (of the attachment), envisages an iterative process to refine the set of performance indicators and associated methodologies provisionally adopted by the same decision. As a tool to implement this iterative process, the GM can provide here its suggestions and recommendations for improvement.

Indicate against which of the e-SMART criteria the indicator(s) needs to be improved.

Compliance with new COP deliberations superseding existing ones – if any

No answer required
According to decision 13/COP. 9, Annex V, UNCCD best practices shall be collected according to seven themes: 1. SLM technologies, including adaptation; 2. Capacity building and awareness raising; 3. DLDD and SLM monitoring and assessment/research; 4. Knowledge management and decision support; 5. Policy, legislative, institutional framework; 6. Funding/resource mobilization; 7. Participation, collaboration and networking.

As stipulated in decision 13/COP.9, attachment, paragraph 7, the GM is requested, where appropriate, to include information on best practices in relation to The Strategy for consideration by the CRIC and the COP. If no best practice has been supported or implemented by the GM on theme 1 (SLM technologies, including adaption), the template may not be filled.

While themes 2 to 7 represent different elements of the enabling environment needed for the implementation and dissemination/up-scaling of sustainable land management (SLM) technologies (indirect impact), theme 1 comprises all actions on the ground that have a direct impact on desertification, land degradation and drought mitigation.

In particular, as specified in document ICCD/CRIC(8)/5/Add.5, paragraph 12, theme 1 ‘SLM technologies, including adaptation’ refers to SLM technologies that directly contribute to the prevention, mitigation and rehabilitation of desertification and land degradation on cropland, grazing land and woodland, with the aim of improving the livelihoods of affected populations and conserving ecosystem services. Successful implementation of SLM technologies is the base for achieving strategic objectives 1, 2 and 3 of The Strategy. Theme 1 also integrates five of the strategic areas defined by decision 8/COP.4, namely: (a) sustainable land use management, including water, soil and vegetation in affected areas; (b) sustainable use and management of rangelands; (c) development of sustainable agricultural and ranching production systems; (d) development of new and renewable energy sources; and (e) launching of reforestation/afforestation programmes/intensification of soil conservation programmes.

ICCD/CRIC(8)/5/Add.5 provides definitions for ‘practice’, ‘good practice’ and ‘best practice’. These definitions are included in the common glossary that shall be referred to by Parties and other reporting entities while reporting to UNCCD, according to decision 13/COP.9, paragraph 8.

The template for reporting is based on the general structure for the documentation of best practices contained in ICCD/CRIC(8)/5/Add.5, paragraphs 40 to 43; it is tailored to the documentation of best practices related to theme 1 ‘SLM technologies, including adaptation’.

When reporting on best practices implemented in affected country Parties, the GM is expected to have contacted and coordinated with the corresponding UNCCD NFP, to ensure coherence and lack of duplication in reporting on the practice.

**Best Practice #1**

**Section 1. Context of the best practice: frame conditions (natural and human environment)**

| **Title of the best practice** |
| No answer provided              |

| **Location (if available, also include a map)** |
| No answer provided                  |

**Attachments:**
none

| If the location has well defined boundaries, specify its extension in hectares |
| Hectares (ha) |
| No answer provided              |

**Estimated population living in the location**
Number of people
No answer provided

Prevailing land use within the specified location
No answer provided

Other (specify):
No answer provided

Brief description of the natural environment within the specified location

Climate:
No answer provided

Soil:
No answer provided

Topography:
No answer provided

Prevailing socio-economic conditions of those living in the location and/or nearby

Income level:
No answer provided

Main income sources:
No answer provided

Land tenure and land use rights:
No answer provided

Short description of the best practice
No answer provided

On the basis of which criteria and/or indicator(s) (not related to The Strategy) the proposed practice and corresponding technology has been considered as ‘best’?
No answer provided

Section 2. Problems addressed (direct and indirect causes) and objectives of the best practice

With respect to DLDD, the best practice directly contributes to:
No answer provided

Main problems addressed by the best practice
No answer provided

Outline specific degradation problems addressed by the best practice
No answer provided

Specify the objectives of the best practice
No answer provided

Section 3. Activities

Brief description of main activities, by objective
Objective 1
No answer provided

Objective 2
No answer provided
Objective 3
No answer provided

Objective 4
No answer provided

Short description of the technology
No answer provided

Technical specifications of the technology – if any
No answer provided

Section 4. Institutions/actors involved (collaboration, participation, role of stakeholders)

Name and address of the institution developing the technology
No answer provided

Was the technology developed in partnership?
No answer provided

If yes, list the partners:
No answer provided

Specify the framework within which the technology was promoted
No answer provided

Other (specify):
No answer provided

Was the participation of local stakeholders, including CSOs, fostered in the development of the technology
No answer provided

If yes, list local stakeholders involved:
No answer provided

For the stakeholders listed above, specify their role in the design, introduction, use and maintenance of the technology, if any.
No answer provided

Was the population living in the location and/or nearby involved in the development of the technology?
No answer provided

If yes, by means of what?
No answer provided

Other (specify):
No answer provided

Section 5. Contribution to impact

Specify to which strategic objectives of The Strategy the technology contributes
(more than one box can be ticked)
No answer provided

Describe on-site impacts (the major two impacts by category)
Production or productivity:
1. 
No answer provided
2. No answer provided

Socio-economic level (including cultural level):
1. No answer provided
2. No answer provided

Environmental level:
1. No answer provided
2. No answer provided

Other (specify):
1. No answer provided
2. No answer provided

Describe the major two off-site (i.e. not occurring in the location but in the surrounding areas) impacts
1. No answer provided
2. No answer provided

Impact on biodiversity and climate change
In your opinion does the best practice/technology you have proposed positively impact on biodiversity conservation? No answer provided
Explain the reasons:
No answer provided

In your opinion does the best practice/technology you have proposed positively impact on climate change mitigation? No answer provided
Explain the reasons:
No answer provided

In your opinion does the best practice/technology you have proposed positively impact on climate change adaptation? No answer provided
Explain the reasons:
No answer provided

Has a cost-benefit analysis been carried out? No answer provided
If yes, summarize its main conclusions: No answer provided

Section 6. Connection to other UNCCD themes

Specify if the technology relates to one or more of the other UNCCD themes No answer provided

Section 7. Adoption and replicability
Was the technology disseminated/introduced to other locations?
No answer provided

If yes, where? (add as many rows as necessary)
Location:
No answer provided

Were incentives to facilitate the take up of the technology provided?
No answer provided

If yes, specify which type of incentives
No answer provided

Can you identify the three main conditions that led to the success of the presented best practice/technology?
Examples of conditions leading to success may include: highly motivated local governments, farmers organized into well structured cooperatives, extremely favorable weather conditions, etc. For each 'condition of success' you are able to identify, specify whether in your opinion such condition is: (a) linked to the local context and thus cannot be replicated elsewhere; (b) replicable elsewhere with some level of adaptation; (c) replicable elsewhere with major adaptation.

1. No answer provided
2. No answer provided
3. No answer provided

In your opinion, the best practice/technology you have proposed can be replicated, although with some level of adaptation, elsewhere?
No answer provided

If yes, at which level?
No answer provided

Section 8. Lessons learned

Related to human resources
No answer provided

Related to financial aspects
No answer provided

Related to technical aspects
